Description

Small Development and High-Value Living

This residential plot in Kaimakli offers a rare combination of modern accessibility and neighborhood character. Positioned on Plapouta Street, the property benefits from a prime corner-like feel with a dedicated pedestrian walkway on its eastern border, ensuring enhanced privacy and natural light. With a building density of 120% and a coverage factor of 50%, the site is ideally zoned for a contemporary three-storey residential building. Kaimakli has solidified its reputation in 2026 as Nicosia's premier "urban-cool" district, attracting a mix of young professionals and academic staff who value the area's authentic charm and proximity to the city center. This steady demand, combined with the plot's clean development parameters and the available title deed, makes it a high-potential asset for a boutique apartment project or a significant family residence, a standard we have prioritized for 3 decades of experience.

Description Nice residential plot behind the ex "Coop" building in Kaimakli. The plot is adjacent to Plapouta street with a pedestrian walkway on its eastern border. It is suitable for a 3-storey building with a 120% building coefficient. Title deed in place. The level topography and the strategic location near established community landmarks provide an efficient foundation for a modern construction project in a neighborhood defined by its heritage and 2026 revitalization.
