Small Development and High-Value Living

This residential plot in the Elaiokipoi area of Tseri represents a premier opportunity for those seeking to build a custom residence or a pair of modern family homes in one of Nicosia's most serene yet rapidly connecting suburban enclaves. Spanning 524 square meters, the property falls within the Kα8 planning zone, providing a building density of 60% and a 35% coverage factor. These technical specifications are perfectly suited for a sophisticated two-storey development that prioritizes privacy and generous outdoor garden space while maintaining immediate access to the capital's expanding infrastructure. In March 2026, Tseri has emerged as a top-tier destination for homebuyers, following the landmark delivery of the €30.7 million Ippokratous-Argyroupoleos-Tseriou road network earlier this month. This major project has drastically improved daily life with four-lane connectivity and wide pavements, seamlessly linking the Elaiokipoi district to the Nicosia Ring Road and the city center. The local real estate market in 2026 is further enhanced by the historic tax reform enacted on January 1st, which included the full abolition of stamp duty and the doubling of the Capital Gains Tax exemption for primary residences to 150,000 euro. This plot's balanced building factors and its location within a high-growth corridor ensure a secure and appreciating asset, a standard of smart investment we have guided for 3 decades of experience.
