Description
Establishing a high-impact presence in one of Nicosia’s most active residential and professional hubs requires a site that offers both exceptional density and a premier urban setting. This residential plot in the Agios Pavlos area of Agios Dometios is the ultimate choice for those who prioritize High-Yield Development and Strategic Acquisition. Situated in a district defined by its proximity to major academic institutions and central services, this property provides the powerful development framework required to create a landmark residential project in a high-demand urban corridor.

High-Yield Development and Strategic Acquisition

The property is situated within the Kα4 residential planning zone, offering a superior building density of 120% and a coverage factor of 50%. These high-intensity parameters allow for the construction of a modern three-storey building reaching a maximum height of 13.5 meters. This density level is perfectly suited for developers looking to maximize floor area for a luxury apartment complex or premium professional suites that can command the highest rental yields in the capital. The location's flexible zoning combined with the established reputation of the Agios Pavlos area ensures that any project developed here will meet the growing demand for modern urban living. Investing in an asset with such a high-yield potential in this strategic district ensures your project remains a secure and solid asset for 3 decades of experience.
