### Description

Family Living and Long-term Investment

The Foundation of Your Future. This 588 sqm residential corner plot in Kokkinotrimithia represents a premier opportunity for custom home development in one of Nicosia's most rapidly expanding suburban districts. Falling within the H3 planning zone with a 60% building density and a 35% coverage factor, the property is perfectly suited for a spacious two-story family residence that prioritizes privacy, garden space, and a high quality of life. In March 2026, the local real estate market has been fundamentally revitalized by the landmark January 1st tax reform, which fully abolished stamp duty on all new property contracts and removed the Special Defence Contribution on rental income, drastically improving the net position for long-term investors. Furthermore, the 2026 market is bolstered by the 6th Edition of the Housing Scheme for the Revitalization of Mountainous, Buffer Zone, and Disadvantaged Areas, which launched on March 2, 2026, offering significant financial grants for eligible applicants building primary residences in communities like Kokkinotrimithia. The availability of a title deed and the corner positioning of the plot provide unique flexibility and security for the 2026 buyer, a standard of smart investment we have guided for 3 decades of experience.

Description Residential corner plot of 588 sqm located in Kokkinotrimithia, Nicosia. The property falls within Residential Zone H3 with a 60% building density and a 35% coverage factor, allowing for a maximum height of 8.3 meters. This residential land offers a level surface and is situated in a high-demand residential pocket. The H3 zone's 60% building factor is a strategic advantage for those seeking to build a large-scale custom villa with extensive outdoor amenities and landscaping, while the corner orientation provides enhanced architectural possibilities and dual-street access.
