Description

Family Living and Long-term Investment

The Foundation of Your Future. This premium 570 sqm residential plot in Geri represents a rare opportunity to secure a position in the capital's most prestigious suburban enclave. Directly opposite the elite Penhill area and minutes from the Athalassa National Forest Park, the property falls within the Ka8 planning zone with a 60% building density and 35% coverage. This makes it an ideal canvas for a high-specification custom villa or a luxury multi-unit development that prioritizes both privacy and proximity to Nicosia's key infrastructure, including the Mall of Cyprus and the General Hospital. In March 2026, the local market is exceptionally strong following the landmark January 1st tax reform, which fully abolished stamp duty on documents and removed the Special Defence Contribution on rental income, significantly enhancing net returns for investors and homeowners. Furthermore, the 2026 market is supported by the 6th Edition of the Housing Scheme for the Revitalization of Specific Areas, which launched on March 2, 2026, providing substantial financial incentives for primary residence construction. The plot's elite positioning ensures a secure and appreciating asset, a standard of quality we have prioritized for 3 decades of experience.
