Description

Establishing a high-impact presence in one of Nicosia's most active commercial and professional hubs requires a site that offers both exceptional density and a premier urban setting. This prime commercial plot in Agios Dometios is the ultimate choice for those who prioritize High-Yield Development and Strategic Acquisition. Situated in immediate proximity to the Engomi Industrial Zone, Apollonio Hospital, and major academic institutions, this property provides the powerful development framework required to create a landmark commercial project in a high-demand urban corridor.

High-Yield Development and Strategic Acquisition

The property is situated within the Eß4 commercial planning zone, offering a superior building density of 140% and a coverage factor of 50%. These high-intensity parameters allow for the construction of a modern four-storey building reaching a maximum height of 17 meters. This density level is perfectly suited for developers looking to maximize floor area for a corporate headquarters, premium office complex, or mixed-use development that can command the highest rental yields in the capital. The potential to support over 850 m² of office space makes this an institutional-grade asset for long-term growth. The owner's openness to land-for-property or land-for-flat exchange (antiparoxi) adds a unique layer of strategic flexibility to this acquisition. Investing in an asset with such a high-yield potential in this strategic district ensures your project remains a secure and solid asset for 3 decades of experience.
