Description

High-Yield Development and Strategic Acquisition

The Foundation of Your Future. This prime 642 sqm residential plot on Vasileos Pavlou Street represents an elite opportunity for high-impact urban development in the heart of Pallouriotissa. Falling within the Ka3 planning zone, the property offers a substantial building density of 140% and a 50% coverage factor, specifically tailored for a modern four-story residential building. In March 2026, the central Nicosia real estate market has been fundamentally revitalized by the landmark January 1st tax reform, which fully abolished stamp duty on all new property contracts and removed the Special Defence Contribution on rental income, drastically improving the net yield for developers and institutional investors. Furthermore, the 2026 market is bolstered by the Nicosia Municipal Urban Revitalization Plan, which is currently delivering extensive infrastructure upgrades to Vasileos Pavlou Street, including new pavements and enhanced accessibility. The plot's generous 24-meter frontage and southwest orientation ensure a secure and appreciating asset, a standard of smart investment we have guided for 3 decades of experience.

Description Plot Granting or Exchange with Flat or Flats is Accepted. This 642 sqm plot on Vasileos Pavlou Street, Pallouriotissa, offers 140% building density for a total buildable area of 898 sqm across 4 floors. Priced at 278 euro per buildable sqm, it sits well below the land registry valuation. The property features a southwest orientation for optimal light and visibility and is located on a street currently undergoing comprehensive municipal renovation. It is an ideal canvas for a flagship apartment complex targeting the high-demand rental market of central Nicosia.
