Description

Establishing a high-impact presence in one of Nicosia's most active commercial and professional hubs requires a site that offers both exceptional density and a premier urban setting. This 679 sqm commercial plot in a central, high-visibility area of Agios Dometios is the ultimate choice for those who prioritize High-Yield Development and Strategic Acquisition. Situated in a prime commercial zone, this property provides the powerful development framework required to create a landmark commercial project in a high-demand urban corridor.

High-Yield Development and Strategic Acquisition

The property is situated within the Eß4 commercial planning zone, offering a superior building density of 140% and a coverage factor of 50%. These high-intensity parameters allow for the construction of a modern four-storey building reaching a maximum height of 17 meters. This density level is perfectly suited for developers looking to maximize floor area for premium office spaces, retail showrooms, or a mixed-use development that can command the highest rental yields in the capital. The significant 679 sqm area provides a substantial canvas for a high-impact architectural project, ensuring the final development stands out in this competitive market. Investing in an asset with such a high-yield potential in this strategic district ensures your project remains a secure and solid asset for 3 decades of experience.
