Description

Establishing a high-impact presence in one of Nicosia's most active residential and academic hubs requires a site that offers both exceptional density and a premier urban setting. This 530 sqm residential plot in Agios Dometios is the ultimate choice for those who prioritize High-Yield Development and Strategic Acquisition. Situated in a quiet street with excellent access to the city centre and major universities, this property provides the powerful development framework required to create a landmark residential project in a high-demand urban corridor.

High-Yield Development and Strategic Acquisition

The property is situated within the Kα4 residential planning zone, offering a superior building density of 120% and a coverage factor of 50%. These high-intensity parameters allow for the construction of a modern three-storey building reaching a maximum height of 13.5 meters. This density level is perfectly suited for developers looking to maximize floor area for a boutique apartment building or a luxury residence that can command the highest rental yields in the capital. The 530 sqm area and the availability of a clean title deed ensure a transparent and rapid acquisition process, while the location's flexible zoning offers incredible long-term potential. Investing in an asset with such a high-yield potential in this strategic district ensures your project remains a secure and solid asset for 3 decades of experience.
