For Sale : **€ 140,000**

Description

Building Your Legacy on Solid Ground starts with identifying unique opportunities in emerging suburban hubs. This large 1,450sqm corner land in Agia Varvara is a standout choice for those focused on high-yield development and strategic acquisition. Its generous proportions and corner positioning provide the perfect canvas for a sophisticated apartment complex or a series of townhouses, offering significant ROI for developers looking to tap into the Nicosia periphery market.

High-Yield Development and Strategic Acquisition

The property is situated within a high-intensity development zone, featuring a combined building density of 120% and a 70% cover factor. This zoning is specifically designed for core areas, supporting dense, continuous development that maximizes the use of the land. With the ability to build across two floors, a developer can create a high-density residential project that capitalizes on the increasing demand for quality housing outside the congested city center. Investing in a corner asset with such high buildable potential ensures that your project remains a secure and solid asset for over 3 decades of experience.

Description Large 1,450m² corner land located in Agia Varvara, Nicosia is available for sale. The land is covered by two zones, primarily Πα9(82%) and Πα8β(18%), both designated for Core and Continuous Development Areas. This classification supports a high-intensity use with a maximum combined allowance of 120% Building Density and a 70% Cover Factor. Construction is permitted up to 2 Floors with a maximum height of 7M. The property benefits from its corner location, providing extensive road frontage and enhanced architectural flexibility for a large-scale residential development.
