Description
Family Living and Long-term Investment
This corner residential asset in the prestigious Nea Ledra area of Dali represents a premier opportunity for high-quality family living in one of Nicosia's most organized and elite suburban environments. Falling within the Ka8 planning zone with a 60% building density and a 35% coverage factor, the property is perfectly suited for the development of a grand custom villa or a spacious family residence that prioritizes privacy, garden space, and architectural distinction. In March 2026, the local real estate market has been fundamentally revitalized by the landmark January 1st tax reform, which fully abolished stamp duty on all new property contracts and removed the Special Defence Contribution on rental income, drastically improving the net position for long-term investors.
Furthermore, the 2026 market is bolstered by the latest energy-efficiency grants for new primary residences launched on March 2, 2026, offering significant financial incentives for homeowners incorporating sustainable smart-technologies. The plot's advantageous corner position within an organized residential zone ensures a secure and appreciating asset, a standard of smart investment we have guided for 3 decades of experience.
Description Residential plot for sale in the New Ledra area, Dali, Nicosia. This under-division property offers a clear canvas for a high-spec development, benefiting from its prominent corner position which enhances architectural flexibility and street presence. The plot falls within Residential Planning Zone Ka8 with a building density coefficient of 60% and a coverage coefficient of 35%, allowing for a maximum of 2 floors and a height of 10 meters. This residential land benefits from being part of a high-status neighborhood, combining a quiet residential atmosphere with rapid accessibility to the Nicosia-Limassol motorway and major commercial hubs. The 60% building factor is a strategic advantage for those seeking to build large family homes with extensive outdoor areas, capitalizing on the surging demand for premium residential properties in 2026.
