Description

Small Development and High-Value Living

This 691 sqm corner residential plot in Lythrodontas represents a premier opportunity for those seeking to build a custom residence or a high-potential project in one of Nicosia's most tranquil suburban retreats. Falling within the H2 planning zone, the property provides a high building density of 90% and a 50% coverage factor, offering the ideal technical specifications for a versatile two-storey development that maximizes both indoor living area and functional outdoor space. A standout technical feature of this property is its corner positioning and flat topography, which provides superior architectural flexibility, enhanced privacy, and the advantage of dual road frontage. In March 2026, Lythrodontas has seen a significant surge in interest from professionals prioritizing a wellness-first lifestyle, as the village provides a serene escape just 28 minutes from the capital's administrative core while remaining perfectly connected to the nature of the Machairas foothills. The local real estate market in 2026 is characterized by steady demand, bolstered by the historic tax overhaul on January 1st which included the full abolition of stamp duty and the doubling of the Capital Gains Tax exemption for primary residences to 150,000 euro. This plot's superior building factors and prominent corner location ensure a secure and appreciating asset, a standard of smart investment we have guided for 3 decades of experience.
