PAPHOS

For Sale : **€ 80,000**

Description

Expansive Protection Field in Agia Varvara – A Secluded Natural Retreat

The Foundation of Your Future

Imagine standing on 8,696m² of untouched landscape in the heart of the Ezousa Valley. Buying land in a protective zone is about the ultimate freedom to own a private piece of Cyprus's natural heritage. This substantial field in Agia Varvara offers a rare blank canvas for those who value absolute tranquility and a deep connection to the Paphos countryside.

Limitless Potential

Primed for a low-impact vision, the property falls within Zone Δα3 with a 5% building density and coverage. This makes it an ideal choice for a discrete eco-sanctuary or a long-term strategic hold. While currently landlocked, the site comes with a clear title deed, ensuring a secure and smooth transaction.

Location & Neighborhood Benefits

You are just minutes from the village's traditional taverns and the historic Agia Varvara Church. Enjoy the serenity of rural life with the extreme convenience of being a 10-minute drive from Paphos Airport and the city center.
