Description

Massive Protection Land in Kalavassos – A Strategic Natural Asset

The Foundation of Your Future

Imagine owning a vast 27,091 m² expanse of raw, Mediterranean landscape in the historic Kalavassos region. Buying a land parcel of this magnitude is about the ultimate freedom to hold a significant piece of Cyprus's natural heritage. This property offers a premier blank canvas for environmental preservationists or strategic investors looking for a high-acreage "buy and hold" in the burgeoning Larnaca district.

Unrivalled Scale and Protection Zoning

Primed for long-term value, the property falls within Protection Zone Z2. While it features a 3% building density, the sheer size of over 27,000 m² allows for a discrete, low-impact footprint, perfect for an off-grid sanctuary or eco-stewardship project. The asset comes with a clean Title Deed, ensuring a secure transaction. Although currently landlocked, its massive scale makes it a dominant feature of the local topography.

Location & Neighborhood Benefits

Situated in the scenic valley of Kalavassos, you are minutes from the Tenta Neolithic Settlement and the charming village square. This location offers the perfect balance of rugged isolation and proximity to the Limassol-Larnaca highway, providing easy access to both cities and the nearby Zygi coastline.

Make It Yours

Assets of this size in protected zones are increasingly rare.
