For Sale : **€ 135,000**

Description

Expansive Protected Estate in Kalavassos – A Rare Ecological Landmark

The Foundation of Your Future

Imagine standing on 25,558 m² of pristine Mediterranean landscape where the history of Kalavassos meets the serenity of the Larnaca hills. Buying a plot of this magnitude is about the ultimate freedom to preserve a massive piece of Cyprus's natural heritage. This expansive field offers a premier blank canvas for those seeking an elite "buy and hold" investment or a secluded eco-retreat far from the urban rush.

Limitless Potential in a Protected Zone

Primed for low-impact, high-vision projects, the property falls within Protective Zone Z1. With a 6% building density and 6% coverage, the site allows for a discrete, high-value development that prioritizes the environment. What sets this asset apart is its accessibility: it abuts a registered road, solving the common challenge of landlocked rural plots. With title deeds in hand, the path to securing this monumental 25-acre estate is clear and direct.

Location & Neighborhood Benefits

You are minutes from the charming Kalavassos Village and the archaeological wonders of Tenta. This strategic position offers easy access to the A1 Motorway, perfectly bridging the gap between Limassol and Larnaca, while keeping the authentic beauty of the copper-rich valley at your doorstep.

Make It Yours

Assets of this scale with registered road access in a Z1 zone are increasingly rare in 2026.
