Description

For Sale Residential Plot In Tseri, Nicosia

Strategic Land Investment in Tseri

Experience an exceptional and highly practical development opportunity with this massive residential field, strategically located in the high-potential and rapidly growing district of Tseri, Nicosia. This property represents a top-tier land proposal, offering a solid, high-value, and highly functional asset for large-scale contemporary residential development, subdivision into individual plots, or long-term strategic holding. Designed for developers, contractors, or investors who demand the perfect balance of peaceful suburban living, extensive development space, and seamless connectivity to the capital's highway network, the field stands as an ideal canvas for construction. Its strategic position ensures a smooth daily routine, making it a secure choice in one of Nicosia's most evolving, established, and well-connected premium residential zones.

Development Potential & High-Value Residential Features

The property features a grand, comfortable, and highly efficient development space spanning an impressive total area of 7,587 square meters. Characterized by outstanding planning metrics, the field falls 100% within the sought-after Kα6 Residential Planning Zone. It offers a generous building density of 90% and a coverage factor of 50%, allowing for the construction of a substantial 2-storey residential project with a maximum height of 10 meters. Whether designing a unified complex of contemporary family villas, a large-scale master-planned community, or a premium low-rise residential estate, this field ensures an exceptionally profitable and practical investment environment with immediate access to necessary regional infrastructure.
