For Sale : **€ 160,000**

Description

For Sale Massive Agricultural Plot In Ftericoudi, Nicosia

Premier High-Altitude Mountain Asset—Explicitly Ideal for a Boutique Vineyard & Winery

Seize a monumental agricultural acquisition with this breathtaking mountain field for sale in the historic, high-altitude viticulture territory of Fterikoudi, nestled within the famous Pitsilia wine-producing region of Nicosia. Spanning an incredible, continuous footprint of 61,433 sq.m. (approx. 46 Cyprus donums), this pristine mountain asset represents a world-class canvas explicitly configured for the establishment of an elite estate winery, high-yield organic vineyards, or an eco-tourism retreat. The region's unique microclimate, volcanic soil composition, and high altitude offer the ultimate terroir for cultivating premium grape varieties.

Agricultural Planning Parameters & Generous Structural Yield

Operating under standard low-density agricultural zoning regulations, the sheer scale of this land provides substantial buildable space for localized processing installations:

Total Land Footprint: 61,433 sq.m. — A massive, unfragmented hillside canvas offering exceptional agricultural utility.

Maximum Building Density : 10% — Due to the property's massive scale, a 10% allowance yields a staggering potential interior footprint of up to 61,433 sq.m. of gross buildable area, perfect for custom wine-making facilities, fermentation cellars, tasting rooms, and barrel storage.

Maximum Coverage Factor: 10% — Safely leaves 90% of the natural mountain landscape completely open for extensive terraced vine planting.

Structural Allowance: Permits buildings up to 2 Storeys Max with an official structural height threshold of 8.3 meters.

Access Optimization Profile (Landlocked Status)

Current Status: The property is currently landlocked, which allows it to be offered at an incredibly competitive, bargain entry-level price per square meter compared to road-fronted parcels.

Development Pathway: The land currently requires a registered road connection. Under Cyprus property law, any landlocked parcel maintains a statutory legal right to apply for and secure a registered right-of-way (passage easement) from the closest public road network through adjacent plots to unlock full vehicular utility for agricultural machinery.

Property Features

Property Type: Large-Scale Agricultural Mountain Field

Listing Type: Available For Sale

Location: Fterikoudi, Nicosia

Total Land Area: 61,433 sq.m.

Coverage Factor: 10%

Maximum Floors Allowed: 2 Storeys Max

Maximum Structural Height: 8.3 Meters

Access Infrastructure: Landlocked

Nearby Landmarks & Amenities

Perched in the scenic, pine-brushed Troodos foothills, the field balances rural isolation with excellent access to Cyprus's famous mountain routes:

Fterikoudi Village & Neighboring Communities (such as Palaichori and Alona) are located just minutes away, offering traditional tavernas, local agricultural cooperatives, and historical heritage sites.

Commandaria & Local Wine Trails: The area is closely linked to Cyprus's deep wine heritage, placing your future winery right on the radar of regional wine tourists and agro-tourism trails.

Nicosia Connectivity: The property is reachable via well-maintained mountain roads connecting back to the main Nicosia highway networks within an approximate 45-minute drive, allowing fluid distribution of wine products to the capital's main commercial hubs.
