Description

For Sale Residential Plot In Aglantzia, Nicosia

High-Yield Residential Development Canvas in Aglantzia's Core University & Corporate Hub

Secure an exceptional residential property asset with this prime plot for sale in the highly sought-after municipality of Aglantzia, Nicosia. Spanning a practical total area of 304 sq.m. with a 100% allocation inside the official Kα4 High-Density Residential Zone, this property delivers an outstanding density ratio. Positioned in immediate proximity to the University of Cyprus (UCY) and primary commercial avenues, it stands as an absolute premier acquisition choice for private buyers looking to build a multi-storey family residence, or smart developers seeking a high-turnover plot for a 3-storey apartment block catering to academic staff, students, and young professionals.

Official Planning Parameters & High-Yield Residential Zoning (Zone Kα4 100%)

Operating under high-density residential planning regulations, the plot offers maximum structural yield and build potential:

Total Land Area: 304 sq.m. — An efficient, high-utility footprint designed for optimized vertical development.

Planning Zoning: Kα4 (100% Residential Ratio) — Fully designated for modern high-density residential construction.

Maximum Building Density (Building Destiny): 120% — Yields a massive total gross interior build potential of up to 364.8 sq.m. across floors.

Maximum Coverage Factor: 50% — Allows for a foundational ground-floor footprint of up to 152 sq.m., leaving the remaining 50% open for covered parking, verandas, and landscaped surrounds.

Structural Thresholds: Officially permits structures up to 3 Storeys Max with an extended height clearance of 13.5 Meters.

Direct Infrastructure & Road Access

Registered Road Access: The property directly abuts a registered public road, ensuring immediate, legally clear vehicular access. This guarantees straightforward building permit approvals, smooth construction logistics, and immediate connection to public utility grids (electricity, water, and high-speed telecommunications).
