Description

High-Yield Residential Corner Plot in Agia Paraskevi – Strategic Investment for Family Living

Whether you are looking to build a custom sanctuary for your family or a smart investor seeking a premium land asset in the prestigious Agia Paraskevi area of Lakatameia, this 1,078 m² residential building plot offers the perfect blank canvas. Buying land in this high-demand and highly accessible neighborhood provides the ultimate freedom to bring a modern architectural vision to life, benefited by a strategic corner location within an organized division project that guarantees long-term value. This site is an ideal opportunity for those who prioritize privacy, space, and building a custom home in a serene urban environment with commanding city views.

Strategic Development and Long-Term Investment

Boasting a prime position within the Kα8 residential planning zone, this property is part of a fully serviced development including registered road access, water, and electricity. With a building density of 60% and 35% coverage ratio, the land offers a focused environment for high-quality family living, ensuring ample space for private gardens and outdoor living areas on a very generous 1,078 m² elevated surface. Emphasize privacy and space with this plot, which allows for a clear path for those looking to capitalize on the stability of the Nicosia property market and maximize long-term investment value. The structural allowance for 2 floors up to a height of 10 meters ensures a well-proportioned and attractive residential design.
