For Sale : **€ 215,000**

Description
Sea views and coastal breezes set the tone for this residential field in Pigenia, a quiet corner of the Tillyria coast where village life still runs at its own pace. The seashore lies close by, so long walks by the water and swims on warm evenings become part of the everyday rhythm.

The land covers a generous 27,425 m² of sloping ground, a landscape-led setting well away from dense urban development. Its residential zoning opens the way to a home designed around the light, the outdoor life and the Cyprus climate. The neighbouring villages of Mansoura, Mosfili and Agios Theodoros Tillirias are a short drive away, as are supermarkets, cafés, restaurants and a petrol station. Further afield, the Gialia Monastery and the Cyprus Mufflon Enclosure show the authentic, unhurried side of the island.

This sale is for a two-thirds share of the field. Through it all runs the setting's greatest gift: a sea view that turns an ordinary day by the Pigenia coast into something to look forward to.
