For Sale : **€ 73,000**

Description
Quiet hills, open sky and a calm, green landscape set the tone for this residential field on the market in Pigenia, Cyprus. It sits in a tranquil and beautiful natural environment, a short way out from the village, where life moves at a slower pace and the countryside is never far from view.

The land is generous in scale, with an irregular shape and a gentle slope that follows the lie of the hillside. Its residential zoning points to a home in the country, and access is along a dirt track. The village centre, restaurants, cafés, supermarkets and everyday services are all a short drive away, as are the neighbouring villages of Pano Pyrgos and Kato Pyrgos.

For days out, the Gialia Monastery lies within easy reach, and the wider region leads to the Cyprus Mufflon Enclosure and the forested landscape that surrounds it. It is authentic Cypriot village life, rooted in a setting with a strong local identity.

This sale is for a half share of the land. What stays with you is the setting itself: peaceful countryside living in Pigenia, wrapped in nature.
