For Sale : **€ 43,000**

Description
Open views across the surrounding landscape set the tone for this field for sale in Pano Pyrgos, Cyprus, a generous plot of 5,352 m² in authentic village surroundings. Zoned for residential use, it offers real space to imagine a home of your own, framed by the hills and greenery of this corner of Nicosia District.

The land has a sloping, irregular shape and direct road access. The village centre, a petrol station, supermarkets, shops, restaurants and cafés are all a short drive away, and the neighbouring villages of Kato Pyrgos and Pigenia are close by too, so everyday needs stay within easy reach.

Life here leans towards the outdoors. The beaches are a drive away, as are the Gialia Monastery and the Cyprus Mouflon Enclosure, two well-loved local landmarks. Paphos International Airport is about 50 km away.

Pano Pyrgos offers a slower pace and a setting with a strong local identity, an authentic alternative to city or resort living. With its generous size and its outlook over the countryside, this is land where the view comes first.
