Shared greenery runs along one edge of this residential fiel...

For Sale : **€ 150,000**

Description
Shared greenery runs along one edge of this residential field in Trimiklini, a village in the Limassol district. One border meets a public green area, and the Saittas Dam lies a short way off, giving the land a setting shaped by open space and village life.

At 5,352 m², the field is large, with a sloping surface and an irregular shape. Its residential zoning gives room for a home, and the slope and the green border are worth walking in person to picture where it might sit and how it could open towards the greenery.

Everyday life stays within easy reach. The village centre is a short drive away, and the neighbouring villages of Saittas and Moniatis are close by too, so shops and cafés never feel far from home.

Sizeable residential land beside public greenery, near the Saittas Dam, offers an unpretentious starting point for a home in the Trimiklini countryside.
