For Sale : **€ 54,000**

Description
Pigenia is a village with a strong sense of place, and this residential field sits in a quiet, purely residential part of it, close to the village centre and its church. Here, life follows the steady rhythm of the village, with neighbours, familiar faces and a calm that suits everyday living. At 3,345 m², the land is sizeable, with room for a home and its own corner of village life. Direct road access along one side makes the field straightforward to reach and to plan around. The plot is irregular in shape and its surface is uneven, so any design will need to work with the ground. An old house stands on the land. Supermarkets, shops, cafés and restaurants are a short drive away in the surrounding villages, and the Gialia Monastery lies a drive away for slow weekend outings. Picture a home rising in this peaceful corner of Pigenia, with the village close at hand.
