For Sale : **€ 40,000**

Description
Kato Pyrgos sets the scene for this residential field, with the village centre and its everyday shops only a short drive away. It is a setting where a home can grow into the life of the village, close enough to its centre for daily errands to stay simple.

The land is large and has a smooth surface, so it is easy to picture where a house might one day stand. It fronts a public road, which gives it direct road access, a practical start for any plans. Its residential zoning offers room for a home here.

Picture coming back from the village with the day's shopping and turning straight off the road onto your own ground, with the rest of the plan still to be shaped. Further afield, Gialia Monastery adds a reason to explore the wider region.

The sale covers a 1/3 share of the field. It is a straightforward piece of residential land, best judged on what it truly offers: road frontage, an easy surface and a village within easy reach.
