For Sale : **€ 80,000**

Description
On the edge of Pachna village, this residential field sits in a beautiful natural environment, the kind of landscape-led setting that feels a world away from dense urban development. Village life is right on the doorstep, with restaurants and cafés within walking distance and the everyday rhythm of a close-knit community all around.

The land is generous in size, with a gently sloping surface and an irregular shape that follows the natural lie of the countryside. Its residential zoning points to a home in authentic village surroundings, with the scenery playing a leading role in whatever is planned here.

Schools, parks and green spaces are a short drive away, as are the neighbouring villages of Agios Amvrosios and Kissousa. Main roads and the Limassol to Paphos motorway can be reached by car, and in the wider region you will find heritage sites such as the Castle of Kolossi and Agios Efstathios.

This sale is for a half share of the land.

For anyone drawn to authentic Cypriot village life, this corner of Pachna offers open land, real character and a closer connection to nature.
