Limassol com...

For Sale : **€ 75,000**

Description
Erimi sets the scene for this sizeable field, a Limassol community with its village centre close at hand and the green calm of the Kantou Reservoir not far beyond. The neighbouring village of Kantou adds to the character of the area, an authentic alternative to city or resort surroundings.

The field covers 27,420 m² and sits within a residential zone, so its plain use is a home in the setting of the village. The land is irregular in shape, with an uneven, sloping surface. It has no direct road access. A large part of it is affected by water supply pipelines.

What it offers is a place in the residential landscape of Erimi, with village life, open green space and the reservoir all part of the surroundings. The sale is of a 7/36 share of the field.

Residential land in Erimi, close to the village and to the Kantou Reservoir.
