For Sale : **€ 30,000**

Description
Argaka brings together village life and the sea, and this residential land puts both within easy reach. The local beaches are a short drive away, and the village primary school is close by, so days can move easily between errands, school runs and time by the water.

The land covers 1,338 m² of sloping ground with an irregular outline. Its residential zoning allows a home of up to two storeys, giving room to plan a house on two levels. The land has no direct road access.

Picture a family home taking shape here, with the village around you and the coast only a short drive away. The neighbouring village of Makounta is close as well, adding to the sense of a connected local community. Paphos International Airport is about 40 km away, so the land stays within reach for visits from abroad.

What stays with you is the setting: a residential corner of Argaka, a short drive from its beaches.
