For Sale : **€ 70,000**

Description
Village life sets the pace in Kannaviou - Melamiou, and this field sits a short distance from the village centre, with the waters of Kannaviou Reservoir a short drive away. It is a relaxed rural setting in the Paphos countryside, with the everyday rhythm of the village close at hand.

The land covers 28,429 m² of irregular, sloping ground. About half lies in a residential zone, with room for a home, while part of the land is agricultural and suited to farming. A small part falls within a protection zone.

The field has no direct road access. The sale is for an 8089/28429 share of the field.

Village life close by, the reservoir within easy reach, and a sizeable piece of the Kannaviou countryside to call your own.
