For Sale : **€ 57,000**

Description
Four adjacent agricultural fields in Lazanias, in Nicosia district, are offered together as one holding of 20,134 m². A surfaced road runs through the land and gives direct road access. The village centre is a short drive away, the neighbouring villages of Fikardou and Gourri are also close by, and main roads serve the wider region.

The ground is irregular in shape with an uneven, sloping surface. Its agricultural zoning makes it suitable for farming and planting. Together, the four fields form a generous, open piece of countryside in Lazanias, sold as a single property.
