

For Sale, Land, Field, Nicosia, Pyrgos Pano, 4,683m²

Village life, open countryside and the sea within a drive co...

For Sale : **€ 21,000**

Description
Village life, open countryside and the sea within a drive come together here. This field on the market in Pano Pyrgos, Cyprus, sits on residential land a short drive from the village centre, with supermarkets, shops, a petrol station, restaurants and cafés all close at hand.

The ground is level and the plot is generous, with an irregular outline that leaves room to think about how a home could sit on it. Direct road access makes reaching the land straightforward. Neighbouring Kato Pyrgos and Pigenia are both a short drive away, adding to the sense of a connected, close-knit corner of the island.

Beyond the village, the landscape opens up. The beaches are a drive away, as are the peaceful grounds of Gialia Monastery and the Cyprus Mouflon Enclosure, a reminder of how close nature feels here. Paphos International Airport is about 50 km away.

This sale is for a half share of the land. Level ground, road access and authentic Cypriot village life all around give it a setting worth discovering.
