For Sale : **€ 17,000**

Description
At the heart of a traditional Paphos village, this residential field in Kato Akourdaleia offers a setting where you could plan a home and live close to the rhythm of authentic Cypriot village life. Neighbouring villages such as Pano Akourdaleia and Loukrounou are a short drive away, with the green hills of the Paphos countryside all around.

The land covers a generous 1,673 m² on a sloping site, with an irregular shape that suits a design working with the natural contours. Its residential zoning points to a family home, and it enjoys direct road access, which keeps the practical side of any plans simple.

Everyday needs are easy to meet. Supermarkets, shops, restaurants, cafés and petrol stations are all a short drive away, while main roads and public services are within reach and a motorway junction lies in the wider region. Weekends can mean a walk by Evretou Lake, a short drive away and one of the area's best-loved nature spots.

This sale is for a half share of the land. A central village location, a landscape-led setting and the lake on your doorstep make this an uncomplicated place to picture a life in rural Paphos.
