For Sale : **€ 50,000**

**Description**
Village life sets the tone for this generous field on the market in Kato Mylos, Cyprus, a Limassol community where the pace is slower and neighbours still know one another. The village centre is within easy reach, and the neighbouring villages of Agios Ioannis and Potamitissa are only a short drive away.

The land is zoned for residential use, offering an uncomplicated starting point for a home in a landscape-led setting away from dense urban development. Its sloping surface gives the field a natural shape on the land, and it has direct road access, so getting on and off the plot is straightforward.

Everyday needs are well covered. Schools, supermarkets and shops, medical centres and pharmacies, restaurants and cafés are all a short drive from the field, along with parks, a sports venue and public service offices. The main roads are a drive away, linking Kato Mylos with the wider Limassol district.

This sale is for a three-quarter share of the field. What stays with you is the setting: a generous piece of residential land, rooted in authentic Cypriot village life.
