Description
Drymou's village centre is only a stroll away from this residential field. A future home here would sit within easy reach of the life of the community, an authentic alternative to town or resort living.

The land covers 3,345 m² and has an irregular shape on a sloping surface. It has direct access from a public road. Its residential zoning allows for a home of up to two storeys, and the incline invites a design that follows the lie of the land rather than fighting it.

Picture a morning walk into the heart of the village, then an easy drive out to neighbouring Lasa and Thrinia, both a short distance away. Shops, schools and cafés are also a short drive off, so everyday needs stay close without leaving village life behind.

This is a sizeable piece of residential land within walking reach of Drymou's centre, with room to shape a home around the village.
