For Sale : **€ 40,000**

Description
Pissouri's village centre is only a short way from this residential field, and the village beach is a short drive away. Village life and the sea both sit within easy reach, giving the land a lovely sense of place on the Limassol side of the coast.

The field covers a sizeable 7,024 m² in a residential zone, with room for a home in a village setting. Its shape is irregular and its surface uneven, so it suits a design that works with the ground. The land has direct road access along one boundary, with a pathway along another.

Picture days that begin with coffee in the village and end with an evening walk by the water. Paphos International Airport is about 20 km away, which makes the journey here easy.

The sale is a 1/2 share of the field. With the village close at hand and the beach just beyond, this is a setting worth seeing in person.
