For Sale : **€ 40,000**

Description
Beautiful natural surroundings and the calm of a quiet rural area set the tone for this residential field in Agios Mamas, a Limassol hill community with authentic Cypriot village life. Here a home can sit in open countryside, away from dense urban development, while the village centre remains only a short drive away.

The land offers a generous 3,679 m² on gently sloping ground. Its residential zoning points towards a home of your own, and the natural fall of the land adds character. Daily needs are easy to meet: supermarkets, shops, schools, restaurants and cafés are all a short drive from the plot. The neighbouring villages of Kapileio and Laneia are also close by, and main roads lie a drive away.

Agios Mamas offers a slower pace and a close-knit community, with parks and green spaces nearby and the wider Limassol region within reach. Above all, this is a chance to settle into peaceful countryside living, with a landscape that makes every day feel like a retreat.
