For Sale : **€ 50,000**

**Description**
Stroumpi, a village in the Paphos district, is the setting for this residential field. It lies a short way from the village centre, with shops and a supermarket right beside it, so village life and everyday errands sit close at hand.

The land covers 1,244 m² with an even surface, and its long frontage on a public road gives it direct road access. Its residential zoning offers room for a home, on ground that is straightforward and unpretentious to plan around.

Picture shaping a house on this land: the morning bread bought just next door, the heart of Stroumpi a few minutes away, and the rhythm of a Paphos village all around you. It is a setting that brings together village surroundings and practical daily convenience.

For anyone hoping to build a life in Stroumpi, here is a sizeable residential plot with the road at its edge and the village centre close by, ready to be imagined as a home.
