**Description**
Two adjoining fields in Stroumpi, in the Paphos district, come together as one holding of 11,456 m². The land has an irregular shape and a relatively even surface. Part of it lies in an agricultural zone suited to farming or planting. Another part falls within a protection zone. The land has no direct road access.

The village centre is a short drive away, as are the neighbouring villages of Polemi and Letymvou. Together, the two fields form a sizeable, relatively even piece of land within the Stroumpi community.
