

For Sale, Land, Field, Paphos, Agios Isidoros, 2,342m²

Village cafés and restaurants within walking distance, and t...

For Sale : **€ 8,000**

Description
Village cafés and restaurants within walking distance, and the green hills of the Paphos countryside all around. This residential field in Agios Isidoros sits in a setting with a strong local identity, where daily life still moves at a slower pace.

The land is regular in shape, with a gentle slope across its 2342 m². Its residential zoning points to a home in a landscape-led setting, well away from dense urban development. Supermarkets, shops and petrol stations are a short drive away, and the neighbouring villages of Steni and Peristerona are close by.

Life here leans towards the outdoors. Evretou Lake is a short drive away, and the coast at Argaka and the Polis Chrysochous area are within easy reach for days by the sea. Schools, bus stations and the main roads are also a drive away, keeping the wider district connected.

This sale is for a one-quarter share of the field. For anyone drawn to authentic Cypriot village life, Agios Isidoros offers countryside character with the lake and the coast close at hand.
