Description
Set in open countryside on the edge of Pano Pyrgos, in the Nicosia district, this agricultural field covers 2,342 m² of land for farming or planting. The plot has an irregular shape and an uneven surface.

The village centre and a petrol station are a short drive away, and the neighbouring villages of Kato Pyrgos and Pigenia are also close by. The land could serve as a practical addition to an existing agricultural or rural holding in the area. It is a versatile piece of farmland in a landscape away from dense urban development.
