Description
Two adjoining fields in the countryside of Agios Georgios, in the Limassol district, come together as a single holding of 18,182 m². The neighbouring villages of Monagri and Doros lie in the surrounding area.

The land has an irregular shape and a sloping surface. Part of it lies in an agricultural zone, suited to farming, and part lies in a protection zone. The land has no direct road access.

Taken together, the two parcels form one sizeable piece of sloping land in the Agios Georgios countryside.
