Description
Three adjoining fields in the countryside around Pachna are offered together as one agricultural holding of 12,125 m². The land is irregular in shape and lies on sloping ground in an open rural setting, suited to farming or planting.

The villages of Pachna, Agios Amvrosios and Agios Therapon are each a short drive away, with a petrol station close by. The Limassol–Paphos Motorway can be reached by car. The fields have no direct road access of their own. Taken together, they form a generous and versatile piece of farmland in the Limassol countryside.
