For Sale : **€ 26,000**

Description
Village life in Pano Panagia sits close at hand here, with this residential field lying near the centre of the community. A local shop, restaurants and cafés are all within walking distance, so a morning coffee or a relaxed evening meal out can become part of the everyday rhythm.

The land covers 2,007 m² and is zoned for residential use, offering room for a home in a village setting with a closer connection to nature. Its surface is sloping and its shape irregular, which will guide how a future home is placed on it. The land has no direct road access.

Beyond the village, the Kannaviou Reservoir is a short drive away for time by the water and green open space, while the Kykkos Monastery and the Cyprus Mouflon Enclosure are within a longer drive.

A sizeable residential field near the village heart, offering the chance to plan a home within the life and character of Pano Panagia.
