For Sale : **€ 21,000**

Description
This agricultural field for sale in Stroumpi is made up of two neighbouring parcels, offered together as one unit of 7,024 m². Vines already grow across the fields, and the ground is fertile and can be cultivated. The land is sloping and irregular in shape, and it has direct road access, which makes it easy to reach for work and equipment.

The village centre is a short drive away, as are Polemi and Giolou, with petrol stations close by. The Limassol–Paphos motorway is within a drive. Fertile ground with vines in place makes this a versatile piece of Stroumpi farmland.
