For Sale : **€ 12,000**

Description
A field on rising ground in Prodromos, made up of two adjoining parcels offered together as a single piece of land with a total area of 6,021 m². The ground slopes and has an irregular shape. It sits in an open countryside setting, away from dense urban development.

The village centre is a short drive away. So are the neighbouring villages of Lemithou and Palaiomylos and a petrol station, with the main roads a little further. The two parcels together make an uncomplicated rural land purchase. Taken as one, they form a sizeable sloping piece of the Cypriot countryside.
