Description
Two adjoining fields form this agricultural holding just outside the village of Pachna in Limassol District. Together they cover 8,362 m², with a slightly sloping surface and an irregular shape. The land lies within an agricultural zone, so its natural use is farming, planting or cultivation.

Pachna is a short drive away, as are the neighbouring villages of Kissousa and Malia. The land has no direct road access. This is a sizeable piece of agricultural ground in the Pachna countryside.
