Description
Two neighbouring fields in Sykopetra are offered together as one Cyprus field of 3,010 m² in an open countryside setting. The land has a sloping, irregular shape and direct road access, so reaching it is simple.

The village centre is a short drive away, as is the nearby village of Kampi. Main roads are within a drive, and the Nicosia–Limassol Motorway lies in the wider region. This is a single sloping stretch of countryside in the Sykopetra area, with its own road frontage.
