Description
Rooted in a setting with a strong local identity, this residential field in Mitsero offers 3011 m² of level ground, away from dense urban development. Its residential zoning gives you room to picture a family home, with plenty of space to spare around it.

Everyday life stays within easy reach. The village centre, schools, cafés and restaurants are all a short drive away, as are the neighbouring communities of Agrokipia and Agioi Iliofotoi. A supermarket, a petrol station and public service offices are a little further on, and the motorway network serves the wider region.

Nature is part of the picture too. The lake at the old Mitsero mines and the countryside around Klirou are both a short drive from the land, a welcome change of scene whenever you want one.

Authentic Cypriot village life, a generous and level plot, and the freedom to shape a home around them: an appealing balance of location, space and flexibility.
