

For Sale, Land, Field, Nicosia, Deftera Pano, 18,088m²

Village life and everyday convenience sit side by side in Pa...

For Sale : **€ 225,000**

Description
Village life and everyday convenience sit side by side in Pano Deftera, where this residential field offers room to picture a home of your own. The setting has a strong local identity, with the village centre, cafés and restaurants just a short drive away.

The land is zoned for residential use, which gives it a clear purpose: a home set within a generous stretch of open ground. Main roads are within walking distance. Supermarkets, schools, pharmacies and medical centres are all a short drive away. Parks, green spaces and sports venues are close by too, bringing an easy outdoor rhythm to daily life, and the motorway is a drive away for longer journeys.

It is an honest, uncomplicated proposition: residential land in a well-served village, close to the services a household relies on. This sale is for a one-quarter share of the field.

Open space, authentic Cypriot village life and convenience within easy reach make this a corner of Pano Deftera with a long horizon.
