

For Sale, Land, Field, Nicosia, Psimolofou, 4,534m²

Room to breathe on the edge of village life: this field for...

For Sale : **€ 175,000**

Description
Room to breathe on the edge of village life: this field for sale in Psimolofou, Cyprus, gives you a generous 4534 m² of residential land in the countryside beyond Nicosia. Two adjoining fields come together as a single unit, giving a broad, flexible canvas for a family home shaped around the land.

The ground slopes and has an irregular outline, the kind of terrain that rewards a thoughtful design and lets a house sit naturally in its surroundings. The land has direct road access.

Everyday life stays simple. The village centre is a short drive away, as are schools, supermarkets and shops, restaurants and cafés, parks and green spaces, and the main roads. Sports venues, a medical centre or pharmacy and the motorway junctions are a little further, so the city remains within easy reach while home stays rooted in authentic village surroundings.

For anyone who has pictured building in Psimolofou, this is an uncomplicated starting point: plenty of land, a residential setting and the slower pace of Cypriot village life, all in one generous plot.
